

# EFFECTIVE AND AFFORDABLE

We offer a variety of high quality and affordable low vision products to help people regain their independence. Featured are a few of the most commonly prescribed products in our low vision clinic:

## DAVINCI HD

A desktop unit that offers a high-resolution image. Sleek design and comfortable viewing positions accommodate any user. Read books, view photos, write checks and more.

## PEBBLE

A small lightweight design makes it the perfect companion whether you're traveling or at home. Read labels, prescriptions, menus and much more.

## HAND MAGNIFIER

A versatile low vision aid that is great for grocery store trips, medicine bottles and phone books. Great first device for mild low vision patients.

## MAX TV GLASSES

Max TV glasses provide a lightweight solution for greater television clarity. They are binocular lenses with a comfortable fit and an easy way to focus each eye to get optimal focus at the precise distance you sit from your TV screen.
